Based in the United Kingdom, Rapid Marine has a wealth of experience when it comes to premium tender and jet ski accessories.

Designing and supplying innovative accessories for yacht tenders and jet skis is the drive behind Rapid Marine. Using the highest quality materials for deck equipment, their products are designed and developed in-house to support the industry worldwide.

Rapid Marine is a leading distributor of tender and jet ski accessories, specialising in adjustable lifting slings, tender chocks and tie down kits. It is a trusted industry supplier with a vast catalogue of quality products.

With DAME award-winning rapid padeyes and universal chocks, along with its comprehensive range of ratchet strap assemblies, Rapid Marine offers a complete on-deck stowage package for boat owners. It aims to provide a one-stop shop approach for yacht owners and offers a unique range of products that are ready for dispatch.

**DAME AWARD**

The DAME Design Award is the world's largest marine competition in the leisure marine industry. It focuses attention on the art and science of design in all aspects and is showcased and awarded at the METSTRADE Show in Amsterdam.

# Chocks

Manufactured in the UK, all of our Chocks are hand crafted in Iroko. Designed for quick fitting and easy removal. Each chock is crafted to the hull shape for the best possible fit and supplied with the necessary deck fittings as seen below.

## Chock kits consist of:

2 x Chocks (FWD & AFT)  
 4 x Stainless deck plates  
 4 x Deck fittings  
 (Low Profile - Sits 5mm above the deck & Flush Fitting - sits flush in the deck)  
 4 x Plastic inserts  
 12 x Screws

 RMC880 Sea-Doo Spark  
 RMC884 Sea-Doo ST3

Introducing the DAME Nominated 2021 Universal Chocks. Designed and manufactured in the UK, from Iroko these hand crafted self adjusting Universal Chocks are designed to support 99% of Tenders up to 1000kg securely to your bathing platform or flybridge.

**Universal Chocks**

- Part number: RMC500
- 2 x Chocks (FWD & AFT)
- 4 x Stainless deck plates
- 4 x Deck fittings (Low Profile & Flush Fitting)
- 4 x Plastic inserts
- 12 x Screws

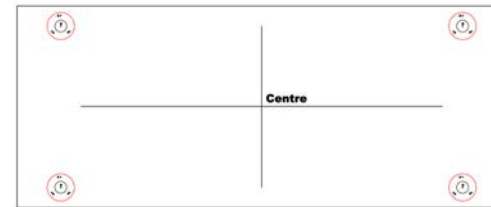

Our Universal Chocks are supplied with a selection of deck fittings. Giving you the option of 'Flush', for when a clean deck is required and a 'Low Profile' for flybridges when cavity space is limited and GRP decks, when a routing is not an option.

**Extra Deck Fittings**

- Part number: RMC463  
Flush Fitting x 4
- Part number: RMC467  
Caulking Line x 4
- Part number: RMC464  
Low Profile x 4
- (For customers who have existing Universal Chocks and wish to chose the deck fittings)

The Universal Chocks are also supplied with the necessary tools e.g drill kit and template to install the chocks to the deck. A chock router has been manufactured to make spacing and cutting into the deck a simple process.

**Template Kit**

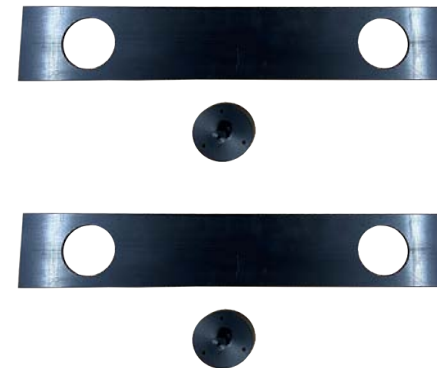

- Part number: RMC466

**Chock Drill Kit**

- Part number: RMC465

Optional extra:

**Chock Router Jig - Set**

- Part number: RMC512  
Flush Fitting Chock Router Jig
- Part number: RMC518  
Caulk Line Chock Router Jig

Introducing the Princess Universal Chocks. Designed and manufactured in the UK, from Iroko these hand crafted self adjusting Universal Chocks are designed to support 99% of Tenders up to 1000kg securely to your bathing platform or flybridge exclusively for Princess Yachts.

**Princess Universal Chocks**

Part number:  
RMC500P

Princess Universal Chocks are designed to complement the Princess Chock Plates, they are rebated underneath allowing for a simple push to fit attachment to the chock plate.

Manufactured in the UK, all of the Princess Chocks are hand crafted in Iroko. Designed for quick fitting and easy removal. Each chock is crafted to the hull shape of the tender.

Keep your Seabob® F5 safe with our premium Iroko wood chocks! Designed to protect your yacht's deck from marks and keep your Seabob® stable, these chocks prevent unwanted movement and ensure tidy storage on any platform. Featuring our innovative soft protective pads, to prevent scratches to your toy. Chocks also available with pins to complement Rapid deck fittings.

**Seabob Chocks**

Part number:  
RMC600  
Standard

Part number:  
RMC601  
With pins

Cushioned support pads

Ensure your Seabob is safely secured on deck with our stainless Seabob Over Strap Padeye Kit. Designed to work seamlessly with our Seabob Chocks, this Seabob accessory provides a secure and reliable fastening solution, preventing movement while at sea.

**Seabob Tie Down Kit**

Part number:  
PE25FFKITSB  
Padeye sits flush in the deck

Part number:  
PE25LPKITSB  
Padeye sits 5mm high

Introducing the award winning Rapid Padeye. Short listed for the prestigious International DAME award at METS 2015. The Rapid Padeye is easy to install, using the snap toggles (RMP205). To attach, insert - push - turn, to release, push - turn - remove.

**Flush Fitting Padeye**

Part number:  
PE25FF  
Sitting flush in the deck

**Caulk Line Padeye**

Part number:  
PE25CL  
Sitting flush in the deck  
with built in caulking line

**Low Profile Padeye**

Part number:  
PE25LP  
5mm high, ideal for GRP  
and Flybridges where  
space is limited

Each Rapid Padeye requires fixing bolts and snap toggles to fit the Padeyes to the deck. Further supplies including the exact drill kit and router jigs have been manufactured to make fitting the Padeyes a simple process.

Our Flush Fitting or Low Profile Rapid Padeye are suitable for all tenders and jetskis up to 500kg in weight with our 25mm ratchets or 750kg with our 35mm ratchets. They are engineered with a weather tight spring loaded seal designed to prevent any water or debris from entering the padeye.

Available in kits of three or four in black or grey, complete with fixing bolts.

**Padeye Fixing Bolts (each)**

Part number:  
RMP212

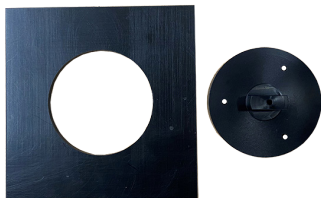

(To be used with Snap Toggles)

**Snap Toggles**

# Tie Down Kits

## Tie Down Kits

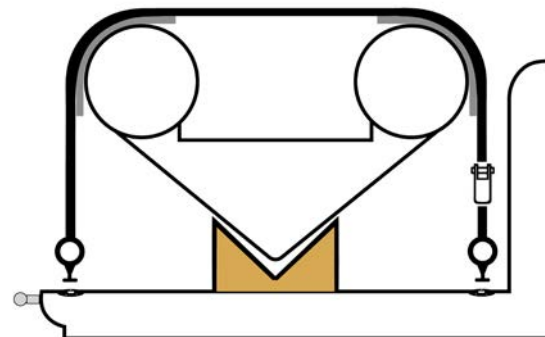

The two most common ways to secure a tender to the bathing platform or flybridge is from the bow and stern of the tender or over the tubes of the tender.

Our tie down kits are manufactured using 316 stainless steel ratchets and 25mm polyester webbing and are suitable for tenders up to 500kg in weight. Supplied in a variety of different end fittings to secure your tender.

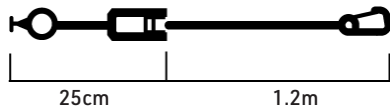

### Bow & Stern Tie Down Kits

### Over Strap Tie Down Kits

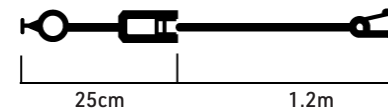

One of the most common ways to secure a tender to the bathing platform or flybridge is from the bow and stern of the tender. For Tenders & Jetskis up to 500kg, we have our 25mm range or for Tenders up to 750kg, we have our 35mm range.

**Padeye to Snap hook Kit**

Part number:  
 Black 25mm: BSKIT25PESH-3-BK  
 Grey 25mm: BSKIT25PESH-3-GY  
 Black 35mm: BSKIT35PESH-3-BK  
 Grey 35mm: BSKIT35PESH-3-GY  
 Pack of 3 straps

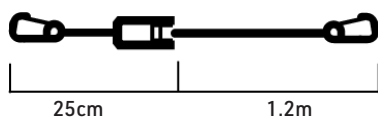

(To be used with any Rapid Padeyes)

**Padeye to Snap hook kit**

Part number:  
 Black 25mm: BSKIT25PESH-4-BK  
 Grey 25mm: BSKIT25PESH-4-GY

Part number:  
OSKIT25PE-GY

(To be used with any Rapid Padeyes)

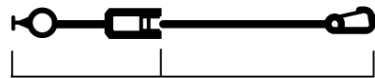

**Padeye to Snap hook kit**

Part number:  
OSKIT25PESH-GY

(To be used with any  
Rapid Padeyes)

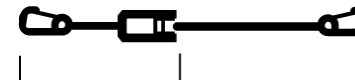

25cm      5.8m

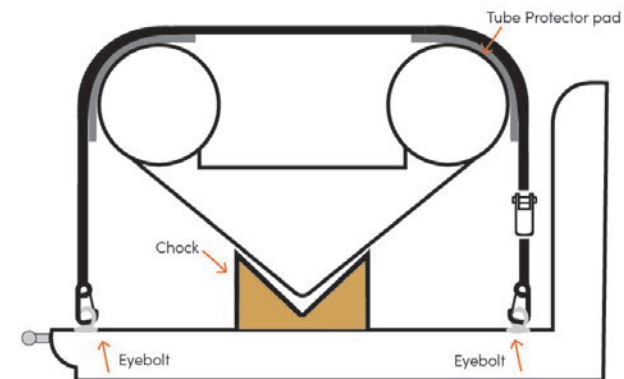

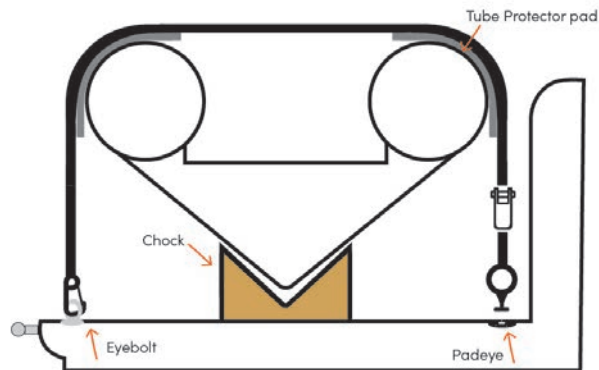

**Snap hook to Snap hook kit**

Part number:  
OSKIT25SH-GY

(To be used with Folding  
padeyes or Eyebolts)

25cm      5.8m

# Lifting Slings

## Jetski Lifting Slings

Rapid Marine provides a safe, quick and easy way to lift your jetski. The 4 point lifting sling uses a single point attachment with a safe working load of up to 500kg.

### PWC Adjustable Lifting Sling

- Consists of:
- Drill bag kit x 1
- Fixing bag kit x 1
- Attachment brackets x 4
- Backing plates x 4
- Storage bag x 1
- Adjustable sling x 1

Where the jetski needs to be lifted internally, lift height room is less than it would be outside. With our shorter sling straps, lifting beam and brackets this can be made possible in a safe manner.

### Lifting Beam

Part number:  
RMJ116

(For when the lift height is restricted)

Your Rapid Marine PWC Adjustable Lifting Sling Kit consists of:

1 x storage bag  
1 x adjustable sling in black

2 x left hand brackets (A) 2 x right hand brackets (B)

4 x backing plates

**Drill bag containing:**

- 1 x Template plug
- 1 x 3mm drill bit
- 1 x 6mm drill bit
- 1 x 2mm drill bit

**Fixing bag containing:**

- 10 x nuts
- 10 x bolts
- 10 x anti vibration washers+ 2 spares

**You will require:**

- Tape measure
- Masking tape
- Pen/pencil
- 10mm spanner
- 4mm allen key

Rapid Marine provides a safe, quick and easy way to lift your 2023 SeaDoo jetski. The 4 point lifting sling uses a single point attachment with a safe working load of up to 500kg.
